

SCREENGUARD™ MANUAL SCREEN FILTERS

BIGGER, BETTER, TOUGHER

DESCRIPTION

Netafim Screenguard™ manual screen filters offer the largest filtration area in the Industry. The result – Better filtration efficiency, excellent irrigation uniformity and less wear and tear.

APPLICATION

- Primary filtration for small holders, for use with well water and/or single use dripperline applications
- Primary filtration for landscaping applications
- Secondary filtration for media filter systems and sand separators
- In-field secondary filters for enhanced protection

FEATURES & BENEFITS

- Extremely large filter area results in lower labor cost due to longer cleaning intervals even with dirty water
- A semi-automatic feature that can be assembled into the filter
- The filter screen cylinder is molded with stainless-steel 316 screen incorporating a special weave, providing an extra layer of protection to the irrigation system and making it easier to clean.
- Ease of installation and maintenance
- The plastic filter housing and cover are molded from high quality engineered plastic for mechanical strength, durability and non-corrosiveness
- A wide range of models with multiple filter area options covering a wide range of flow rates, ensures a perfect fit for different water quality and protection requirements
- Multiple configurations and connection types that fits perfectly with any irrigation system
- Different micron rating screens suited to a variety of applications
